

Dear First and Second Grade Parents:

The current Northshore School District procedure to support the Washington State Law on child safety restraints is for 1<sup>st</sup> and 2<sup>nd</sup> grade field trip transportation to be by bus. However, we have received permission to transport 1<sup>st</sup> and 2<sup>nd</sup> grade students on this field trip by private vehicle, if certain conditions are met:

- Parents confirm the age, height, and weight of their child, and provide a child safety or booster seat if needed (or PACE will help you get one).
- A certified Child Passenger Safety Technician / Instructor will be on hand the morning of the field trip to confirm that approved child safety or booster seats are available for all the students who are required to use them, according to Washington State Law. He or she will check each vehicle to ensure that the required seats are properly installed, and will check that all students going on the field trip are properly restrained per Washington State Law. He/she will also ensure that drivers know how to properly restrain the children for the return trip.

To participate in this field trip, please fill out the regular permission slip, and this Addendum.
